SOFTWARE DEVELOPMENT & PROJECT MANAGER EXPERIENCE

10/2024 – 05/2026

Project Manager / Professional Development| Palisade Defense & Independent Projects | North Las Vegas, NV

- Focused on expanding software development and automation skills through hands-on projects in Python, JavaScript, HTML/CSS, and Google Apps Script, while strengthening practical experience in application development and workflow automation.
- Built an ERP-style inventory and operations system in Excel/VBA, improving accuracy, reporting, and audit readiness.
- Designed and implemented AI-assisted and automated workflows using Power Automate, n8n, Google Apps Script, and AI tools to streamline HR and operational processes.
- Created a centralized Google Sites/Drive training and document system with automated compliance tracking.
- Implemented Monday.com workflow tracking and developed SOPs, training guides, and instructional videos.
- Gathered business requirements, documented workflows and decision logic, and translated operational needs into AI-assisted and automated solutions.

01/2023 – 10/2024

Programmer Analyst | Entek | Henderson, NV

- Self-trained in C#/.NET Core and rebuilt/deployed a critical manufacturing application within 3 weeks.
- Developed, maintained, troubleshot, and deployed C#/.NET Core and WinForms applications supporting manufacturing operations.
- Modernized legacy VB.NET applications to C#/.NET Core, improving maintainability and reducing technical debt.
- Managed source code, releases, and Agile workflows through Azure DevOps.
- Coordinated UAT with international teams in Japan, the UK, and Indonesia.
- Earned one of the highest merit increases during first annual performance review.

10/2020 – 12/2022

Student & Caregiver | University of New Mexico | Albuquerque, NM

- Completed a B.S. in Computer Science while serving as a primary family caregiver.
- Developed programming projects using Java, C, Python, MATLAB, and Haskell.

03/2019 – 10/2020

Accounting Specialist | Rapid Temps, Inc. | Rio Rancho, NM

- Managed payroll processing, financial records, timesheet data, and employee information for a high-volume workforce operating across multiple states.
- Utilized technology and process organization to improve accuracy and efficiency in administrative workflows.

EDUCATION

Bachelor of Science | Computer Science & Applied Mathematics | University of New Mexico | 2021 | GPA 3.33
